What is Trade?

A Global Trade Network is where good can travel from one continent to another when people all over the world buys stuff from eachother.

01

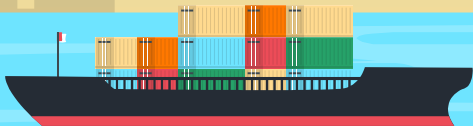

Cargo Ships

Trade by sea

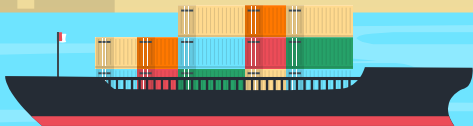

Cargo Ships

Cargo ships are huge ships that carry a lot of **containers**. An example of a Cargo Ship looks like this:

Cargo Ships

These Cargo Ships travel a very long time to reach places from other sides of the world! Like from going from **China** to the **US**.

02

Planes

Trade by air

Planes

Planes fly **high up in the air** to transport goods. A plane can fly from Europe to Argentina without touching water

Planes

Planes have a lot of **space** inside them, so items can be shipped across sea.

03

Trains

Trade by ground

Trains

Trains carry many items across land on train tracks! Usually they move inside **one country**.

04

Trucks

Trade by ground

Trucks

Trucks usually transport **food** across a country to super markets, so there is cool fruit picture on them in America.

Activities!

Make your **Ship**, **Plane**, **Train**, or **Truck** on a piece of paper filled with your favorite thing!

Activities!

Make your **Ship**, **Plane**, **Train**, or **Truck** on a piece of paper filled with your favorite thing!

Activities!

Make your **Ship**, **Plane**, **Train**, or **Truck** on a piece of paper filled with your favorite thing!

Activities!

Make your **Ship**, **Plane**, **Train**, or **Truck** on a piece of paper filled with your favorite thing!
